YEOVIL COLLEGE ENGINEERS INTERNATIONAL LINKS

Yeovil College has welcomed a delegation of visitors from Wuhan Vocational College of Software and Engineering (WVCSE) in central China.

Five senior staff, including principals, vice-principals and department managers, visited to see Yeovil College's state-of-the-art Engineering workshops and gain teaching best practice knowledge.

The initial visit was the first of two by staff from WVCSE aimed at giving them the opportunity to learn more about how practical Engineering skills are taught in the UK.

Yeovil College Principal James Hampton said *"Yeovil College is delighted to be pioneering work with a number of Chinese schools and colleges. The UK is a leading provider of high level vocational training and we're proud to be seen as a centre of excellence in this area by our Chinese partners. We hope that our partnership will be beneficial for both staff and students at Yeovil College and Wuhan Vocational College of Software and Engineering and we're looking forward to welcoming the next delegation from Wuhan later this year."*

A second group consisting of top teaching staff will be visiting Yeovil College in March 2012.
